

REMARKS:

Applicant replies to the Advisory Action dated April 9, 2010, after filing an RCE on April 16, 2010. Claims 1-8 are pending in the application. Applicant again thanks the Examiner for the indication of allowable subject matter in claims 5-7. Claim 1 is currently amended. Support for the amendments may be found in the originally-filed specification, claims, and figures. No new matter has been introduced by the amendments. Reconsideration of this application is respectfully requested.

Applicant further amends claim 1 in order to further define the relationship between the 'scribe line forming mechanism' and the 'scribing line forming means'. In particular, claim 1 now recites "... the scribing line forming mechanism is configured to move on a surface of the substrate and to pull the scribing line forming means to form the scribing line on . . . " This amendment clarifies that the scribe line forming mechanism pulls the scribing line forming means as it moves across the substrate. This movement of the scribing line forming means forms the scribing line on the substrate. In this way, Applicant even further clarifies the relationship between the scribe line forming mechanism and the scribing line forming means.

Support for this amendment can be found in at least page 25, line 3 to page 27, line 11 and Fig. 2-4 of the originally filed specification.

Dependent claims 2-7 variously depend from independent claim 1, so Applicant asserts that claims 2-7 are differentiated from the cited reference for the same reasons as set forth above, in addition to their own respective features.

In view of the above remarks and amendments, Applicant respectfully submits that all pending claims properly set forth that which Applicant regards as its invention and are allowable over the cited references. Accordingly, Applicant respectfully requests allowance of the pending claims. The Examiner is invited to telephone the undersigned at the Examiner's convenience, if that would help further prosecution of the subject application. The Commissioner is authorized to charge any fees due to Deposit Account No. 19-2814.

Respectfully submitted,

Date: April 16, 2010
